## Mosaic Crochet Basics

All work is done on the front side of the work (do not turn). Alternate colors every row.

All SC stitches are worked into the back loops of same row. (SCBLO)

All DC stitches are worked into the corresponding front loop 2 rows below. (DCFLO)

## Getting Started

## Base: Make an I-cord CH of 38, CH 1

SC under both loops of the $1^{\text {st }}$ st (mark with stitch marker),
SCFLO 36, SC under both loops of last st (mark with stitch marker), TURN SCFLO 36 across backside
*Starting in Round 1, change color on final pull-through of last stitch
The charts are numbered from left to right for layout purposes, but crochet charts are read from right to left (unless you are a left-handed crocheter). There is a red arrow on chart p. 2 to show you where to start your project.

Here is an example of how to lay out your charts. I would suggest using the Knit Companion app. Many of my pattern testers have found using a stitch marker in their project for the first stitch of each page helped them stay on track really well.

$$
\text { P. } 1 \quad \text { P. } 2
$$

## How to read the chart

The following 2 pages use my D'nealian Font lower case 'a' pattern as a sample to illustrate how to read the charts. (This is not the actual pattern-it is for instructional purposes to illustrate beginning mosaic crochet concepts). My favorite method for using charts is the Knit Companion app. (Don't let the name throw you, it's for crochet too!) You can link this app with your Ravelry store and access all of your patterns, as well as save your downloaded PDF patterns to Dropbox and access them that way.

Row 1 Example

Row 1 of this example pattern is the blue row of SC (in back loops only). Notice that even though the shading of the pattern changes to show what the final product will look like...row 1 is entirely empty boxes all the way across. That means SC into every stitch. Each row alternates colors. Color A is the color of the design.

Join with your new color in the last stitch of each round. In row 2 (color B), the X means DC into the front loop of the corresponding stitch 2 rows below and the $\square$ means SC into back loop of the current row.
Work the row from right to left: DC 5, SC 4, DC 4, SC 4, DC 3.

## Row 3

Final product!

I have created many of the stitches and notation system in my designs. There is not a current standard notation system for Mosaic Overlay crochet, so please take some time to familiarize yourself with mine.

I have used the Craft Yarn Council Standards abbreviations. Here is a link to that list. https://www.craftyarncouncil.com/standards
*Please note-several symbols are color-coded. Do not print your charts in grey-scale!
